## Day 1: Cape Grace, Cape Town

---

### Day Itinerary

Welcome to **Africa!** Upon arrival at Cape Town International Airport, you will be met by a local representative and transferred to your hotel.

Today you will enjoy a **private, half-day Cape Town City Tour.**

The tour commences with a hike up Table Mountain (weather permitting; cable car fee not included). Enjoy panoramic views over the Mother City and the Atlantic Seaboard with Robben Island in the distance lying sleepily in Table Bay Harbor. In the heart of the city enjoy a short walk through the Company Gardens. From squirrels to a variety of plant life, it's a happy place to soak up some 'Cape Town vibes' and enjoy the aviaries and fishponds. On the Wale Street end of the garden you will find a monument which was created to commemorate the life and work of Desmond Tutu –

lovingly referred to by South Africans as “The Arch” and a tribute to the values of the South African Constitution. Arch for Arch was installed beside historic St. George's Cathedral aka “People’s Cathedral” for its role in the resistance against apartheid. Step inside the Slave Lodge which explores the history of these unwilling immigrants and how they have contributed to the richness and diversity of South African history. As you drive through the city you will get a feel for the cultural melting pot that it is. End the tour with a stop at Truth Café a ‘steampunk inspired’ artisan coffee shop serving all hand-roasted coffees in a vintage cast-iron drum (any meals for own account). Return to your hotel upon completion of the tour.

Resting at the confluence of the Indian and Atlantic oceans, situated between the slopes of the iconic Table Mountain and the glistening sapphire waters of the Atlantic and Indian oceans, the exceptionally scenic city of Cape Town is in a class of its own. Some cities boast rich culture, vibrant nightlife, a cosmopolitan atmosphere and extraordinary architecture, while others boast breathtaking landscapes and extraordinary natural wonders. Cape Town is fortunate to be blessed with all of these attractions and so much more. With its bustling harbour, world-class beaches, top-notch vineyards, and its mountainous surroundings brimming with diverse flora and fauna, Cape Town consistently captivates the hearts of all who visit.

### ***Table Mountain***

Without a doubt it is Table Mountain that makes Cape Town the unique city it is. Rising up over 1000m above sea level, it is the icon that makes Cape Town instantly recognizable. It is a symbol, a playground, a spiritual retreat and a big draw card for tourists. So intertwined with the identity of Cape Town is Table Mountain that a visit to the city isn’t complete without having walked or taken the cable car to the top.

### ***Company Gardens***

The Company Gardens is a treed haven in the middle of the city and is surrounded by museums and fascinating buildings - St Georges Cathedral, the Salve Museum, The National Art Gallery and the Jewish Museum to mention a few.

| Kirstenbosch Botanical Gardens |

### ***Camps Bay***

Camps Bay is a wealthy coastal suburb located just ten minutes from the city bowl. Set on the slopes of Table Mountain, it overlooks a series of beautiful sandy bays and the Atlantic Ocean beyond. Camps Bay is home to Cape Town's most glamorous beach.

### ***Hout Bay***

The originally small fishing village of Hout Bay is now a popular suburb of Cape Town. Over and above being a lovely family beach, it has many tourist attractions which include the World of Birds, a township tour to the vibrant Imizamo Yethu, arts and crafts, boat rides out to Seal Island and some great, casual restaurants where you can relax and enjoy the surroundings.

### ***Cape of Good Hope***

Part of the Table Mountain National Park that extends from Signal Hill in the north all the way to Cape Point in the south, the Cape of Good Hope is not the southern tip of Africa, despite lying at the south-west corner of the Cape Peninsula, just a little south of Cape Point on the south-east corner.

Cape Agulhas, roughly 150 kilometres southeast of here, holds this title instead. The Cape of Good Hope, however, remains a significant headland in the sense that from here one travels more eastward than southward, and it is not hard to imagine that rounding of the cape in 1488 was a major achievement.

This said, the Cape of Good Hope is one of two world-renowned landmarks within the Table Mountain National Park, the other is Table Mountain. These two familiar attractions are what draws thousands of visitors to Cape Town, not a new attribute to the Cape of Good Hope that functioned as something of a beacon for sailors for years and is still widely referred to as 'The Cape' by sea farers. the Cape Peninsula, just a little south of Cape Point on the south-east corner.

### *Kirstenbosch Botanical Gardens*

On the lower slopes of Table Mountain, the beautiful Kirstenbosch Botanical Gardens showcases some of the Cape's rich flora. Taking centre stage here is the unique 'fynbos' vegetation. Those who work up an appetite while exploring this garden paradise can visit the restaurant or tea room, which are fully stocked with delicious meals, yummy treats and refreshing beverages. In summer, Sunday music concerts provide sunset entertainment. Kirstenbosch is rated as the seventh best of its kind in the world.

## Day 4: Vumbura Plains, Okavango Delta

---

### Day Itinerary

Today you will be transferred to the local airstrip for your scheduled flight to **Maun, Botswana**. From here, you will connect with your onward private charter flight the Okavango Delta.

Captivating Vumbura Plains lies in the far north of Botswana's Okavango Delta, a UNESCO World Heritage Site and the largest inland delta on Earth. Perched on raised decks in the midst of the melapo – the annually inundated grasslands – the camp almost floats over water, radiant blue and pure enough to drink. Nestled under tree canopies and airily open to nature, Vumbura Plains serves up intimate wildlife encounters on the spectacular floodplains, studded with ilala palms and small islands.

### Expert Tips

**A typical day on safari** brings different experiences but generally, your safari day includes two major activities/game drives per day. One beginning early in the morning and the second starting mid to late afternoon. There may be times when you stay out all day and a picnic lunch is then provided.

Your day usually starts with an early wake-up, normally before sunrise. You'll have a light breakfast then a morning game drive to catch the animals in action before the heat of the day sets in. While out, you may stop and have some tea/coffee and snacks before returning to your camp/lodge for brunch or lunch and a siesta. Most morning activities are over by late morning (around 10/11: 00 am).

In the late afternoon (usually between 3:30-4: 30 pm), you'll head back out for another game drive where often you will end with a 'sundowner' (drinks and snacks in the bush). You will then return to the camp/lodge in time for dinner and drinks. Most safari vehicles are partially if not entirely open to ensure that everyone has a great view.

On transfer days where you move between camps the itinerary may be slightly different depending on your schedule. Your guide and camp managers will discuss and plan your days with you.

Situated in the northwestern corner of Botswana, the Okavango Delta is a World Heritage Site as it is the largest inland delta in the world. The magnificent Okavango River sprawls out over the dry sands of the Kalahari Desert forming this flourishing waterlogged oasis featuring countless meandering waterways and crystal clear lagoons studded with water lilies, as well as fertile floodplains and reeded islands inhabited with abundant wildlife. The Okavango Delta stretches over an impressive 15000 square kilometres. Visitors can enjoy a number of wonderful activities such as game viewing, fishing, bird watching or taking an authentic guided Mokoro excursion through this wetland paradise in a traditional dugout canoe. Commonly spotted animals include: lion, rhino, leopard, giraffe, hippos, elephants, crocodiles and countless species of bird.

#### **Overnight: Vumbura Plains** [View iBrochure](#)

A modern-style safari camp that wouldn't look out of place in an architecture magazine, Vumbura Plains is designed and operated in total empathy with its diverse surroundings. Partnerships with local communities in this region of the Okavango Delta have created empowerment opportunities while allowing guests access to its many treasures.

Fourteen light, airy guest tents feature designer fittings and touches of unabashed luxury, including private plunge pools and salas, indoor and outdoor showers. Safari activities focus on day and night game drives through a variety of game-rich terrains. Seasonal water activities can be very rewarding, to say nothing of a hot air balloon safari.

**INSIDER'S TIP:** Enjoy the use of the spotting scope for exceptional viewing of birds and wildlife. If you are lucky, you may even catch a glimpse of the resident otter family!

#### **Standard Tent(s)**

Vumbura Plains – South

There are six twin bedded tents. The single beds can be pushed together to make a double bed. There is one twin bedded guide/pilot room which is much smaller than a standard tent.

Move seamlessly between land and water, between different terrains. Slip quietly through the channels in a mokoro, a traditional dugout canoe; buzz a bit faster by delta boat. Adventure into the skies, soaring in a hot-air balloon or by helicopter . From the splendour of your suite, watch elephants grazing peacefully in the distance. ## Overnight: Giraffe Manor [View iBrochure](#)

Giraffe Manor is an exclusive boutique hotel, set in 12 acres of private land within 140 acres of indigenous forest in the Langata suburb of Nairobi. This elegant, personally hosted hotel is famous for its herd of resident Rothschild's giraffe who visit morning and evening, poking their long necks into the windows in the hope of a treat. With its stately façade, elegant interior, verdant green gardens, sunny terraces, and delightful courtyards, Giraffe Manor offers a rich blend of comfortable accommodation and highly trained and friendly staff. It is the only place in the world where you can enjoy the breathtaking experience of feeding and photographing a giraffe over the breakfast table or at the front door.

### **BETTY SUPERIOR ROOM**

Betty-the-giraffe was born in 2000 and came to Giraffe Manor in 2002. She is one of the smallest and prettiest giraffes here but she is also the shyest. Betty is named after Betty Leslie-Melville, otherwise known as “The Giraffe Lady”. Betty Leslie-Melville and her husband Jock purchased the manor in the 1970s and she always said that the purchase of the stately home in a leafy suburb of Nairobi changed her life. The same week that the couple moved in to the manor, they learned about the plight of the Rothschild’s giraffe and decided to do whatever they could to conserve them. Today, the breeding and conservation programme that continues on the grounds of the manor remains Betty’s legacy.

In the room named after Betty, you will find Betty’s portrait hanging on the wall. It is a lovely, 32 square-metre south-facing room in the original manor house which was built in 1932. It has a king sized bed, fireplace and adjoining balcony from which the giraffes can be fed. The en-suite bathroom remains to this day in its original, quirky Art Deco style. We have opted not to modernise it as we prefer to embrace the period feel and protect the heritage of the building since so few tributes to Kenya’s past architecture remain. This room cannot be made into a twin and is therefore ideal for couples.

## Day 8: Mara Plains Camp, Olare Motorogi Conservancy

---

### Day Itinerary

Waking up to **breakfast with a giraffe** must be one of the most incredible and unique experiences anyone can have. This activity is reserved exclusively for overnight guests of Giraffe Manor and is one not to be missed. Loping across the manor lawns and peering in through the large windows with their elegant necks, encountering endangered Rothschild's giraffes at such close quarters gives a real appreciation of just how beautiful and soulful these creatures are. Watch out for their inquisitive tongues, which can grow up to twenty inches long, as they investigate what's on offer; luckily, it's nutritious dried grass pellets that they're after, not your pancakes!

After breakfast you will be transferred to Wilson Airport for your private charter flight to the Olare Motorogi Conservancy, adjacent to the famed Masai Mara National Reserve. One of only five camps in the conservancy, Mara Plains Camp, has unrivalled access to more than 35,000 acres of exclusive land. This area is prime habitat for a vast number of wildlife species, and this is in addition to offering unfettered access to the nearly one million acre Masai Mara National Reserve.

The Olare Motorogi Conservancy is an 85 square kilometre expanse of prime private wilderness in southwest Kenya; part of the Maasai Mara-Serengeti ecosystem and wildlife dispersal zone. The conservancy lies immediately to the northwest of the main Maasai Mara Reserve. Tourism is limited to a maximum of 94 beds which maximizes the client's wilderness experience and minimizes the environmental impact of tourism. Open hills provide a habitat for a diverse range of grazers, including giraffes, zebras, hartebeests, and warthogs. These herds attract large numbers of predators, including lions, cheetahs, hyenas, and jackals. In between the hills run a number of small seasonal streams, fringed by stretches of forest which are home to a broader range of species including baboons, elephants, buffaloes, hippos, and leopards.

BREAKFAST WITH GIRAFFES

---

### **BREAKFAST WITH GIRAFFES**

Waking up to breakfast with a giraffe is a unique and unforgettable experience. Depending on where you are staying, you will have breakfast either in the main manor or in the Garden Manor breakfast room, but don't worry, the giraffes know exactly where to find you! Watch out for their long inquisitive tongues as they investigate what's on offer; luckily, it's nutritious dried pellets of grass, molasses and corn that they're after, and not pancakes and bacon!

### **Overnight: Mara Plains Camp**

[View iBrochure](#)

Mara Plains Camp is a one-of-a-kind, seven tent camp located in the private 35,000-acre Olare Motorogi Conservancy, on the northern boundary of the Maasai Mara National Reserve. This intimate tented camp blends the finest wildlife viewing with outstanding hospitality and guiding. No other camp offers the extensive traversing area of Mara Plains Camp, with access to a total of 100,000 acres of private conservancy land as well as the world-renowned Masai Mara, home to the Great Migration. Olare Motorogi Conservancy has an incredible density of big cats and only one guest bed per 350 acres, leaving the land unadulterated for the wildlife to roam and thrive. By day and night, the camp is a sanctuary for resident species, including many of the Maasai Mara's 300 bird species. After dark, larger mammals frequent the camp and Maasai warriors escort guests to and from their rooms. Hippos snorting and leopards barking often provide the night's chorus. The camp itself has only seven tents, each with deep canvas canopied ceilings, rough-hewn wood floors and accents of East Africa's rich safari history. Each guest tent comes with Swarovski binoculars and a professional Canon camera and lenses.

### **Suites**

The camp is nestled in lush forest on the meandering bends of the Ntiakitiak River, and careful thought was given to every detail. The camp is not an imposition on the landscape, but rather a subtle refuge among the wild. The camp's main area takes your breath away; positioned just so, the horizon lies ahead, punctuated by a single acacia tree. It's the Africa of the mind's eye. Flanking the main mess area is the library, an area to enjoy a quiet afternoon passing the time reading books or editing photographs. Flowing fabrics, open-air spaces and strong teak structures ground the space.

Each of the seven tents has deep canvas canopied ceilings, rough hewn wood floors and accents of East Africa's rich safari history. Thick Lamu wood doors, deep purples, and brass accents – these small details transport guests to a time

and land far away. The well-appointed en-suite facilities (including a deep copper bath) plus the extensive private verandah complete what is genuinely a stunning concept. These stylistic elements coupled with thoughtful environmental elements such as solar power and an absence of cement make Mara Plains is a modern-day safari retreat. Tents 1 & 2 share a deck and can act as a family unit. Tents 4 & 7 can serve as honeymoon tents. Tents 5 and 6 are most suitable for guests with limited mobility. Tents 3 & 5 is closest to the main area with minimal steps and a banister.

### **Day Itinerary**

After breakfast, descend the dramatic 2,000 ft walls by vehicle for game viewing on the **Ngorongoro Crater** floor. Spend the day wildlife viewing and enjoy a picnic lunch in the largest intact volcanic caldera. Over 20,000 mammals call the crater home, including some of the only remaining black rhinos in the world.

The landscape is characterised by vast stretches of savannah interspersed with acacia trees and riverine woodlands. Wildlife can be seen along the banks of the Mara River and visitors can view the annual spectacle of the half a million migrating wildebeest. Commonly spotted wildlife include: a multitude of plains game such as buffalo, zebra, gazelles, impala, giraffe as well as lion and leopard. ## Activities

Game Drives (Included)

---

### *Game Drives (Included)*

As and Beyond Ngorongoro Crater Lodge is situated in the rim of the Ngorongoro Crater, game drives take a significant amount of time to reach the crater's floor and return to the lodge. This means that you will most likely be offered the choice of one morning or afternoon game drive per day. You will descend into the crater through a lush highland forest, with magnificent birdlife to be spotted among the different tree species. Once on the grassy crater floor, you may discover a large variety of grazing herbivores, as well as the predators that are attracted by this abundant supply of prey. Depending on the time of year, you may see huge flocks of pink flamingo around the shores of the shallow Lake Magadi, while the surrounding swamp is inhabited by hippo. While the Ngorongoro Crater boasts an incredible abundance of wildlife, you will most likely also encounter a great number of other vehicles during the high season, especially at high interest sightings. On the other hand, the rainy season is much quieter, allowing for a far more private game drive. Safari vehicles are closed, with glass windows and a pop-up roof. Off-road driving is not permitted.

Each spacious suite has a king-sized bed (twin beds available) with fine linens and safari-chic decor to offset the wilderness just beyond the canvas walls. Kigali Genocide Memorial & Museum

### *Kigali Genocide Memorial & Museum*

Located just outside of Kigali City Centre in the Gasabo district, Kigali Genocide Memorial & Museum was created by a joint partnership of the Kigali City Council and the UK-based Aegis Trust. The centre is an extremely moving, challenging, educational and ultimately inspiring as well as a great place to understand the cause, tragedy and successful rebuilding post-genocide.

The memorial hosts a tour which is transparent and educational but very sombre and humbling when guests realise that over 250,000 deceased are buried on the site of the memorial.

### **Day Itinerary**

#### **Gorilla Trekking Day!**

After an early breakfast, drive to park headquarters where you'll be allocated a gorilla family. You will be briefed by your trackers then drive to the trailhead. Your trek through the mountainous forest can take from 1 to 6 hours depending on the location of the gorilla family. The terrain is rough, and at times muddy. Although the trek can be physically demanding, the beauty of the forest makes it worthwhile. Once located, you'll spend one hour observing the gorilla family before returning to your lodge for lunch. Enjoy the remainder of your day at leisure or plan an activity with your guide.

**Expert Tips**

Gorilla Tracking and Permits - Only a limited number of daily permits are available and not confirmed until paid in full. Trekkers must be 15 years of age or older. Only 1 hour is allowed with the gorillas, and trekkers must stay at a distance of at least 50 feet. To protect the gorillas from disease, any guest with an obvious cold or other communicable illness will not be allowed to participate in the treks. Trekkers must be fit, as tracking occurs in dense, misty forests on steep-sided mountains of up to 9,800 feet. Porters can be hired to carry equipment and we encourage guests to hire one or more of them to assist with climbing and to support local youth.

**Activities**

Gorilla Trekking Volcanoes National Park

***Gorilla Trekking Volcanoes National Park***

Gorilla Trekking in the Volcanoes National Park offers visitors the unique opportunity of discovering the 10 families of gorillas that live within the national park. Visitors can enjoy a cup of coffee before the trek starts and will be separated into groups of 8 depending on their physical abilities. Each group is guided by a guide and two scouts who are well trained in emergency situations. The amount of time set aside per trek is different depending on where the gorilla family is situated. Some trips may take as little as half an hour and some taking the better part of the day.
