**TREK DESCRIPTION:** After meeting this morning at the park headquarters, you will set out early to begin your trek through the park's dense vegetation, traveling up and down its steep slopes in search of groups of mountain gorilla. There are four distinct gorilla family groups in this region comprising 17 individual families, and only eight guests are allowed to visit each family group on any given day. The mountain gorillas in Bwindi have undergone an extremely delicate process which has gradually brought them to tolerate the presence of humans for a brief period every day and which has allowed a few privileged visitors to interact with them in the wild, so your experience will be both unique and awe-inspiring. Many of the experienced guides who accompany you have been involved in the habituation process themselves. These guides use their experience, knowledge of the gorillas' habits, and information from the previous day to locate the group's whereabouts.

Following your trek, you will be transferred back to camp. Enjoy the remainder of your day at leisure. All meals will be served at camp.

**TREK DESCRIPTION:** Each family is headed up by an adult male silverback gorilla and may be made up of a collection of blackbacks, sub-adults, juveniles, and infants of both sexes. The gorillas are completely wild and unpredictable animals. Because of this, the time taken to track them varies enormously, from as little as half an hour to as long as nine hours. Once the gorillas are located, you can spend one magical hour with them.

Following your trek, you will return to the lodge. Enjoy the remainder of your day at leisure. Lunch and dinner will be served at the lodge.
