Linyanti Reserve

The Kwando-Linyanti river system is home to a series of private game reserves, known for their exotic animal species and luxury safari options. An abundance of wildlife roams freely between the woodland habitats, ancient floodplains and forests that make up these lush, unfenced reserves. The big game in this area increases dramatically during the dry season when the area hosts large herds of impala, blue wildebeest, giraffe and buffalo as well as the world's highest density of elephant. Several packs of wild dog are found in the area and lion, leopard and cheetah are frequently sighted. Night drives allow for the discovery of nocturnal creatures such as civets, genets, honey badgers and spring hares. This vast, untamed wilderness is the perfect location for those seeking a unique African adventure in an exclusive and remote big game habitat.

Accommodation

DumaTau Camp

DumaTau' means 'roar of the lion,' but it is likely to be the elephants which make the greatest impression here. Its location in the Linyanti and on the banks of Osprey Lagoon position it squarely at the epicenter of Botswana's elephant herds that are dotted across the northern regions. Other wildlife abounds, and there is a great variety of species to be seen in the contrasting habitats.

Eight twin guest tents and two family tents have views over the lagoon, and the floating sundowner deck symbolizes the light footprint of a camp run solely on solar power.

INSIDER'S TIP: The Linyanti is recognized as an IBA (Important Bird Area), so the hides and platforms in the area are ideal for bird watching and photographing wildlife.

Moremi Game Reserve

Moremi is the most diversified of all the Botswana parks, in terms of wildlife and scenery, and many people feel it is the most beautiful. Located in the northeastern part of the Okavango Delta, Moremi contains over 1,160-square miles (3,000-km²) of permanent swamps, islands, floodplains, forests and dry land. The park's boundaries have been recently extended to the west and northwest, significantly enlarging its size.

The Moremi Reserve offers exciting big game viewing. Herds of buffalo and elephant, the shy lechwe, wild dog and cheetah make their home in this tranquil and unspoiled area. This reserve rates as one of the best and most beautiful in southern Africa and both game and birds are diverse and plentiful. The highlight here is the concentrations of plains game and all the predators – including the big cats! Leopard sightings are particularly good. Recently, white rhino have been introduced to this concession, making it the only place in Botswana where these magnificent animals can be seen in their natural habitat.

Accommodation

Mombo Camp

Mombo Camp, on Mombo Island just off the northern tip of Chief's Island, is built under large shady trees and overlooks a wonderful floodplain teeming with wildlife.

Accommodation comprises eight spacious suites raised off the ground, all built to maximise the vistas over the plains. Each tent is elegantly furnished, complete with en-suite bathroom, a dressing area, indoor and outdoor showers, as well as a bathtub that creates a sense of indulgence. The expanded deck includes a sala and plunge pool.

A large living and dining area looks out over that same view, while Mombo's famous traditional dinners are hosted in the nearby boma. Mombo shares a Safari Boutique, spa, gym and lap pool with Little Mombo. Large concentrations of plains game often occur in front of camp; you may see a variety of animals without even leaving the veranda.

INSIDER'S TIP: Arguably the best big game viewing in all of Africa with a bountiful hunting ground for large prides of lion and leopard.

Okavango Delta

The Okavango Delta, covering over 6,000-square-miles (15,000-km²), is a natural mosaic of palm-fringed islands, open savannah, flowing rivers, crystal-clear lagoons and floodplains sprinkled with water lilies, and gigantic baobab and jackalberry trees.

The Okavango River originates in the central African highlands, located in Angola which is about 600 miles (1,000 km) northwest of Botswana, then it fans out into the Kalahari Desert to create a vast system of thousands of waterways, separated by innumerable islands, and it eventually disappears into the Kalahari sands.

Game viewing for the larger land mammal species is excellent in many parts of the Delta. Large herds of buffalo, elephant, giraffe and a variety of antelope are often seen. Lion, leopard, cheetah and other predators are also frequently encountered. Hippo and crocs are found in the waterways and bird lovers will relish the incredible variety.

Accommodation

Vumbura Plains

A modern-style safari camp that wouldn't look out of place in an architecture magazine, Vumbura Plains is designed and operated in total empathy with its diverse surroundings. Partnerships with local communities in this region of the Okavango Delta have created empowerment opportunities while allowing guests access to its many treasures.

Fourteen light, airy guest tents feature designer fittings and touches of unabashed luxury, including private plunge pools and salas, indoor and outdoor showers. Safari activities focus on day and night game drives through a variety of game-rich terrains. Seasonal water activities can be very rewarding, to say nothing of a hot air balloon safari.

INSIDER'S TIP: Enjoy the use of the spotting scope for exceptional viewing of birds and wildlife. If you are lucky, you may even catch a glimpse of the resident otter family!

The park protects a phenomenal array of game, including elephant, lion, leopard and buffalo, as well as crocodile and hippopotamus in the Mara River. The birdlife is no less impressive, with over 450 resident bird species. However, the true highlight here is the Great Migration, recognised as one of the Seven New Wonders of the World. To survive the dry months of July to September, some 1.7 million wildebeest, migrate from the parched plains of the Serengeti National Park in Tanzania. Along with much smaller numbers of antelope, buffalo and zebra, they move to the more forgiving grasslands of the Masai Mara. In their wake come predators such as lion, hyena and cheetah, for whom these giant herds are an easy source of prey.

Governors' II Moran Camp

Governors' Camp is Africa's first permanent tented camp, remaining in its original site since 1972.
