PROJECT: Sweet Scribbles
Use your sewing machine and a heavyweight thread to draw lines on scraps of fabric.

DESIGNER: Minki Kim (minkikim.com)
ORNAMENTS
Finished sizes: 3” square and 3×4½” (excluding hangers)

MATERIALS FOR ALL ORNAMENTS
- Tear-away stabilizer
- Lightweight iron-on fusible web
- Polyester fiberfill
- Water- or air-soluble fabric pen

CUT FABRICS
To use fusible web for appliquéing patterns A–K and 3×4½” rectangle for present, complete the following steps.

1) Lay fusible web, paper side up, over patterns. Use a pencil to trace each pattern the number of times indicated in cutting instructions, leaving ¼” between tracings. Cut out each fusible-web shape roughly ¼” outside traced lines.

MATERIALS FOR “WISH” ORNAMENT
- 3½” square tan star print (appliqué foundation)
- Scrap of green print (appliqué)
- 3½” square red print (ornament back)
- 12-weight sewing machine thread: green and red
- ¼”-diameter flower button: blue (tree topper)
- 7½”-long piece of red-and-white baker’s twine (hanger)

MAKE “WISH” ORNAMENT
Measurements include ¼” seam allowances. Sew with right sides together unless otherwise stated. Press seams in directions indicated by arrows on diagrams. If no direction is specified, press seam toward darker fabric.

1) Use a pencil or water- or air-soluble fabric pen and the “Wish” Ornament Full-Size Appliqué Pattern to trace A tree pattern onto tan star print 3½” foundation square (Diagram 1).

2) Arrange green print A tree appliqué on marked foundation; fuse in place following manufacturer’s instructions (Diagram 2).

3) Using the “Wish” Ornament Full-Size Embroidery Pattern and a light table or bright window, trace machine-stitching lines for w, s, and h and tree onto Step 2 rectangle with a water- or air-soluble fabric pen (Diagram 3).

4) Layer Step 3 square and a tear-away stabilizer 3½” square; baste. Set up sewing machine with green 12-weight thread in the upper spool holder, a size 90/14 needle, and a 2.5–3 millimeter stitch length. The smaller the stitch length, the smoother the stitching lines will appear. Sewing through all layers, slowly stitch just inside edges of tree appliqué and along marked line for tree trunk, backstitching at beginning and end of each stitched portion (see photo, page 5).

5) Change to red thread and stitch lines for w, s, and h in same manner.

6) Gently remove tear-away stabilizer from back side of embroidered square.

7) Hand-sew blue flower button to top of tree to make ornament top.

8) Matching raw ends, fold 7½”-long piece of red-and-white baker’s twine in half. Position raw ends of folded twine on right side of ornament top in center of upper edge; baste in place (Diagram 4).

9) With right sides together, layer red print 3½” square atop ornament top: pin together, making sure twine is between layers. Sew around all edges, leaving a 1” opening for turning (Diagram 5).

10) Turn right side out through opening; press. Stuff firmly with fiberfill, using a knitting needle or bamboo skewer to fill corners. Hand-stitch opening closed to complete “wish” ornament.
