

Project: Season's Tidings

DESIGNER: PAM NEUENDORFF FOR ANNA GRIFFIN, INC. (ANNAGRIFFIN.COM)

Bring glad tie-dings to your door decor—knot fabric strips around a wire frame for a custom look.

Project: Season's Tidings

Materials

- 2 yards total assorted holiday prints (strips)
- 18"-diameter wire wreath frame (available at crafts stores)
- Ribbon (hanger; optional)
- Rotary cutter with pinking blade and mat
- Acrylic ruler

Finished wreath: 22" diameter (including strips)

Yardages and cutting instructions are based on 42" of usable fabric width.

Cut Fabrics

From assorted holiday prints, use a pinking blade and rotary cutter, mat, and acrylic ruler to cut:

- Enough 1"-wide strips 6"-8" long to cover wreath

Assemble Wreath

- 1.** Tie a 1"-wide fabric strip onto the inner ring of the wire wreath frame using an overhand knot (**see photo, right**). Pull knot tight. Adjust so right side of fabric faces out.
- 2.** In the same manner, add additional strips in a random pattern until all rings have been covered and an eye-appealing balance of prints and colors has been achieved. If needed to fill in areas, tie on more strips to complete wreath.
- 3.** If desired, thread a length of ribbon through a ring on back of wreath; knot to make a hanging loop.
