

Project: Noel Holiday Card

DESIGNER: LINDA LUM DEBONO

Traditional Christmas wishes are made extra warm by using felt for the letters. A light background helps the word pop, while a scallop edge adds a decorative touch.

## Project: Noel Holiday Card

**Materials**

- 7½" square brown cardstock
- 7½×3½" rectangle light aqua cardstock
- Scraps of olive green and red felt
- Lightweight fusible web
- Scallop-edge scissors
- Glue

Finished card: 3¾×7½"

**Cut Fabrics**

Cut pieces in the following order.  
The pattern is on page 3.

To use iron-on fusible web for appliquéing, complete the following steps.

1. Lay fusible web, paper side up, over patterns. Use a pencil to trace each pattern the number of times indicated in cutting instructions, leaving ½" between tracings. Cut out each fusible-web shape roughly ¼" outside traced lines.
2. Following manufacturer's instructions, press fusible-web shapes onto wrong sides of designated fabrics; let cool. Cut out fabric shapes on drawn lines. Peel off paper backings.

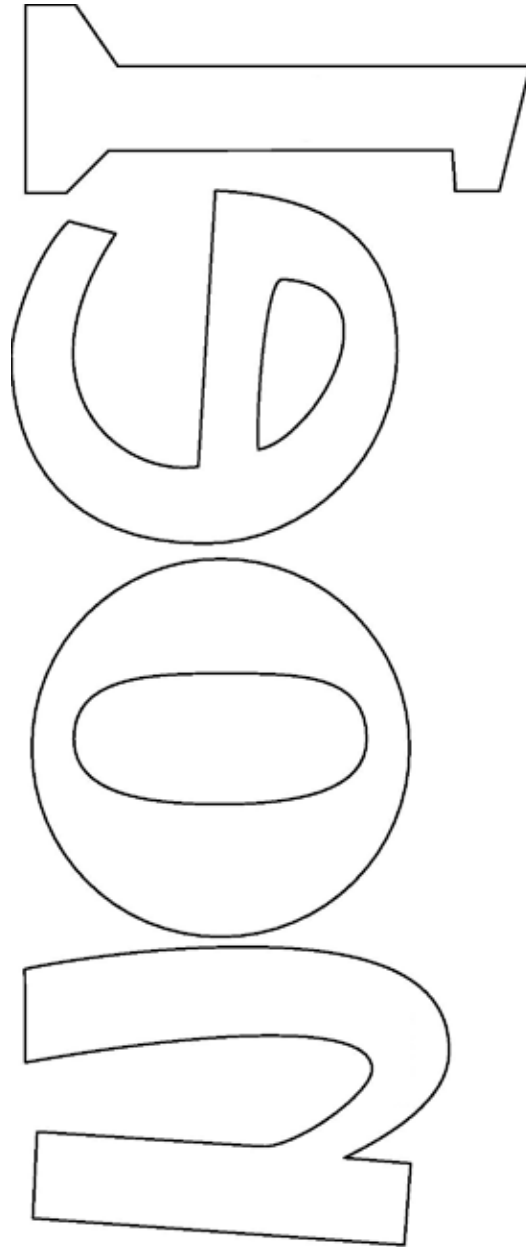

**From olive green felt, cut:**

- 1 each of patterns N and E
- 1 each of patterns O and L

**Assemble Card**

1. Fuse olive green felt letters N and E and red felt letters O and L onto a light aqua cardstock 7¼×3½" rectangle. Trim cardstock edges with scallop-edge scissors.
2. Fold a brown cardstock 7½" square in half to make a card. Center and glue the embellished light aqua rectangle to the card front.
