

Project: Pointsettia Ornament

DESIGNER: ARTFUL OFFERINGS

Nothing says Christmas like a poinsettia. Layers of red felt and three pearl beads flower into the classic blossom on this easy-to-make ornament.

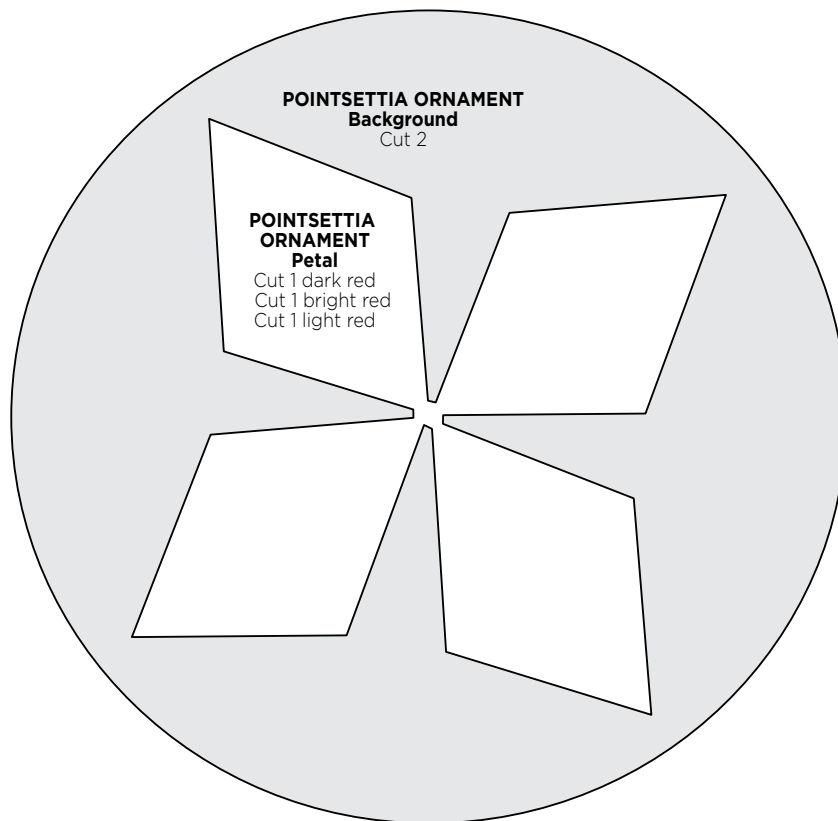

Project: Pointsettia Ornament

Materials

- Freezer paper
- Iron
- Dark red felt
- Bright red felt
- 3 small pearl beads
- Green felt
- Thread: white and green
- Needle
- Fiberfill
- Drapery cling ring

Assemble Ornament

1. To make an ornament, place freezer paper, shiny side down, over patterns on page 2. Trace patterns number of times indicated; cut out.
2. Using an iron, press freezer-paper shapes, shiny side down, onto felt; let cool. Cut out shapes. Peel off paper.
3. Center a dark red petal section on the circle front. Place a bright red petal section on top; turn it clockwise until all points are visible. Repeat with a light red petal section, turning it so all 12 points are visible.
4. Secure petals by sewing pearl beads on the top, stitching through all the petal sections and the green circle front.
5. Sew circle front to back, leaving an opening. Add fiberfill; sew opening closed.
6. Glue light red petal tips to circle front. Attach a drapery clip ring.

This box should measure 1".

* NOTE:

When printing a downloadable pdf, set Page Scaling preference to NONE to print patterns at 100%. Do NOT "Shrink to Fit" or "Fit to Printable Area."

Make and Use Templates

Make Templates

A template is a pattern made from extra-sturdy material so you can trace around it many times without wearing away the edges. Acrylic templates for many common shapes are available at quilt shops. Or you can make your own by duplicating printed patterns on template plastic.

To make permanent templates, purchase easy-to-cut template plastic, available at quilt shops and crafts supply stores. Lay the plastic over a printed pattern. Trace the pattern onto the plastic using a ruler and a permanent marker to ensure straight lines, accurate corners, and permanency.

For hand piecing and appliqué, make templates the exact size finished pieces will be (without seam allowances). For piecing, this means tracing the patterns' dashed lines.

For machine piecing, make templates that include seam allowances by tracing the patterns' solid and dashed lines onto the template plastic.

For easy reference, mark each template with its letter designation, grain line (if noted on the pattern), and block name. Cut out the traced shapes on their outside lines. Verify each template's shape and size by placing it over its printed pattern. Templates must be accurate; errors, however small, will compound many times as you assemble a quilt. To check templates' accuracy, make a test block before cutting the fabric pieces for an entire quilt.

Use Templates

To mark on fabric, use a pencil, white dressmaker's pencil, chalk, or a special fabric marker that makes a thin, accurate line. Do not use a ballpoint or ink pen; it may bleed if washed. Test all marking tools on a fabric scrap before using them.

To make pieces for hand piecing or appliqué, place a template facedown on the wrong side of the fabric and trace. Then reposition the template at least $\frac{1}{2}$ " away from the previous tracing (**Diagram 1**), trace again, and repeat. The lines you trace on the fabric are sewing lines. Mark cutting lines $\frac{1}{4}$ " away from the sewing lines, or estimate the distance by eye when cutting out the pieces with scissors. For hand piecing, add a $\frac{1}{4}$ " seam allowance; for hand appliqué, add a $\frac{3}{16}$ " seam allowance.

Because templates used to make pieces for machine piecing have seam allowances included, you can use common tracing lines for efficient cutting. Place a template facedown on the wrong side of the fabric and trace. Then reposition the template without a space between it and the previous tracing (**Diagram 2**); trace again and repeat. Using a rotary cutter and ruler, cut pieces out, cutting precisely on the drawn lines.
