

Project: Let It Snow Card

DESIGNER: LINDA LUM DEBONO

Build a cute snowman out of felt. Add a snowy greeting below him for a wonderful winter greeting card.

Project: Let It Snow Card

Materials

- 4×5½" rectangle light blue cardstock
- 6×9" rectangle burgundy cardstock
- Scraps of white, black, and orange felt
- Scraps of white solid
- Thread: orange
- Lightweight fusible web
- Glue

Finished card: 4½×6"

Cut Fabrics

Cut pieces in the following order. The pattern is on page 3.

To use iron-on fusible web for appliquéing, complete the following steps.

1. Lay fusible web, paper side up, over patterns. Use a pencil to trace each pattern the number of times indicated in cutting instructions, leaving ½" between tracings. Cut out each fusible-web shape roughly ¼" outside traced lines.
2. Following manufacturer's instructions, press fusible-web shapes onto wrong sides of designated fabrics; let cool. Cut out fabric shapes on drawn lines. Peel off paper backings.

From white felt, cut:

- 1 of Pattern B

From black felt, cut:

- 1 each of patterns A, D, E, and F

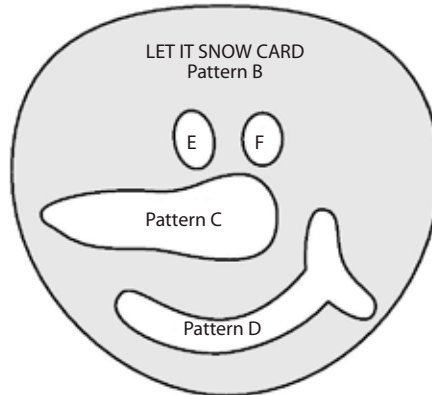

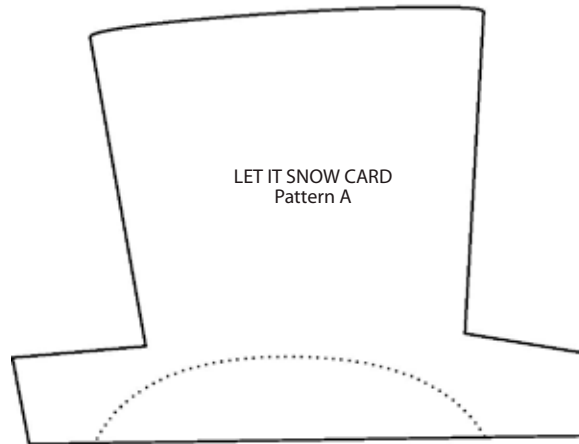

From orange felt, cut:

- 1 of Pattern C

Assemble Card

1. Fuse an orange Pattern C nose, black Pattern D mouth, and black patterns E and F eyes onto a white Pattern B face. Using orange thread, hand-stitch nose in place. Fuse the snowman face and a black Pattern A hat onto light blue cardstock 4×5½" rectangle.
2. Fold a burgundy cardstock 6×9" rectangle in half to make a 4½×6" card. Center and glue the light blue rectangle to the card front.
3. Print "Let it snow!" on fabric or paper. This card uses printed words in white type with a burgundy background on white fabric. Trim to a ½×2¼" rectangle. Use scraps of fusible web to adhere rectangle just below snowman.

Project: Let It Snow Card

This box should measure 1".

*** NOTE:**

When printing a downloadable pdf, set Page Scaling preference to NONE to print patterns at 100%. Do NOT "Shrink to Fit" or "Fit to Printable Area."
