

Project: No-Sew Bright Ornaments

DESIGNER: JANN WILLIAMS

FABRICS are from the Kumari Garden collection by Dena Designs for FreeSpirit ([freespiritfabric.com](http://freespiritfabric.com)).

Craft jiffy, no-sew tree trimmings from splashy fabric. Choose a favorite holiday print or use scraps of leftover fabric for one-of-a-kind ornaments.

## Project: No-Sew Bright Ornaments

### Materials for One Ornament

- Scrap of large-print fabric (ours measures 8" square)
- 9×12" sheet adhesive-back, peel-and-stick crafts felt, such as Stick-It
- 10"-long,  $\frac{3}{8}$ "-wide satin ribbon or twill tape
- Assorted glass beads
- Pinking shears
- Crafts knife, such as X-acto knife

### Assemble Ornament

1. Press fabric scrap. Roughly fussy-cut design motif from fabric, about  $\frac{1}{2}$ " outside motif edges.
2. Cut a piece of peel-and-stick crafts felt slightly larger than fabric motif. Peel off felt backing.
3. Center and smooth fabric motif onto sticky side of felt. Finger-press layers to secure fabric to felt.
4. Using pinking shears, trim outer edges of felt-backed fabric motif to make ornament.
5. Using a crafts knife, cut a  $\frac{1}{2}$ " vertical slit beginning about  $\frac{1}{4}$ " from center top edge of ornament.
6. Thread ribbon or twill tape through slit; tie ribbon ends together about 3" from slit to make hanger.
7. Thread needle through two or three assorted beads and stitch to dangle them from bottom to complete ornament.
